INITIAL DECISION AND ORDER

Statement of the Case

The subject property is presently valued as follows:

<u>LAND VALUE</u>	<u>IMPROVEMENT VALUE</u>	<u>TOTAL VALUE</u>	<u>ASSESSMENT</u>
\$73,200	\$333,400	\$406,600	\$162,640

An Appeal has been filed on behalf of the property owner with the State Board of Equalization on August 28, 2006.

This matter was reviewed by the undersigned administrative law judge pursuant to Tennessee Code Annotated (T.C.A.) §§ 67-5-1412, 67-5-1501 and 67-5-1505. This hearing was conducted on October 11, 2006, at the Division of Property Assessment Office; present at the hearing were Michael John and Robbie Chandler from the Aegis Group, the taxpayer's representative and Mr. Dennis Donovan, Division of Assessments for the Metro. Property Assessor.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

Subject property consists of a commercial tract/convenience market (business enterprise)¹ located at 974 Murfreesboro Road, in Nashville, Tennessee.

The taxpayer's representative, Mr. Michael John, contends that the property is worth between \$160,000 to \$230,000² based on the lack of a viable tenant for the second floor of the building. Mr. John indicates that due to the location, lack of adequate parking space, economically depressed and rough neighborhood, there is little likelihood of finding a viable tenant. Mr. John indicates that the second floor should have no attributable value to the property because it is not income producing.

The assessor contends that the improvement on the property should be valued at \$279,000 with the total value of \$352,200. In support of his position, Mr. Donovan stated that while he partly agrees with Mr. John that the property is located in a depressed economical neighborhood he believes, and rightly so, that the 2nd story should have some value. He arrived at his figures by apportioning the rent received for the 1st story at a significant reduction and applied it to the 2nd story to arrive at his figures.

¹ An entity pursuing an economic activity. *The Dictionary of Real Estate Appraisal*, 4th Ed., 2002.

² The appeal form indicates a value of \$250,000.

Mr. John testified that while the property is not rented out, it is still heated and cooled (receiving electrical services). Mr. John used the income analysis approach to value (exhibit #2) and he also presented photographs to show some of the blight in and around the property, however; the germane issue is the value of the property as of January 1, 2005³. The basis of valuation as stated in T.C.A. § 67-5-601(a) is that "[t]he value of all property shall be ascertained from the evidence of its sound, intrinsic and immediate value, for purposes of sale between a willing seller and a willing buyer without consideration of speculative values"

There are typically three (3) approaches to estimate the fair market value of property: the sales comparison approach, the cost approach and the income approach⁴. Since the subject property is a business enterprise the income approach appears to be the most appropriate method of arriving at a valid opinion of fair market value.

After having reviewed all the evidence in this case, the administrative judge finds that the subject property should be valued at \$279,000 based upon the presentation of the documents from Mr. Donovan, a slight reduction from the Davidson County Board of Equalization's values appears to be appropriate.

Since the taxpayer is appealing from the determination of the Davidson County Board of Equalization, the burden of proof is on the taxpayer. See State Board of Equalization Rule 0600-1-.11(1) and *Big Fork Mining Company v. Tennessee Water Control Board*, 620 S.W. 2d 515 (Tenn.App.)

With respect to the issue of market value, the administrative judge finds that Mr. John simply introduced insufficient evidence to affirmatively establish the market value of subject property as of January 1, 2005, the relevant assessment date pursuant to Tenn. Code Ann. § 67-5-504(a).

ORDER

It is therefore ORDERED that the following value and assessment be adopted for tax year 2006:

<u>LAND VALUE</u>	<u>IMPROVEMENT VALUE</u>	<u>TOTAL VALUE</u>	<u>ASSESSMENT</u>
\$73,000	\$279,000	\$352,000	\$140,800

It is FURTHER ORDERED that any applicable hearing costs be assessed pursuant to Tenn. Code Ann. § 67-5-1501(d) and State Board of Equalization Rule 0600-1-.17.

³ Mr. John also used the sales comparison approach but he had only one comparable sell figures to use. Both parties agreed that there were limited examples of sales in this area.

ENTERED this 27th day of October, 2006.
